

MATH WIZARD REVEALS AMAZING SECRETS OF CALCULATING SKILLS

Education: Students shed calculators and pencils with "Math Magic"

Finally, there's a completely logical system of math mastery that can improve anyone's calculation skills.

HAVE A MATH TUTOR IN YOUR HOME AND SAVE \$\$\$\$!

STUDENTS WHO DISCOVER "MATH MAGIC" EXPERIENCE A WHOLE NEW WORLD OF NUMBERS

Scholastic Aptitude Tests are critical to college acceptance. Low math scores can keep a student from attending the college of their choice, and math is one-half of the total SAT score.

FACT: MATH IS 50% OF SAT TESTING

Statistics show that students with a positive attitude towards math achieve higher grades, as indicated by the chart below from the U. S. Department of Education.

KNOWN WORLDWIDE AS THE "HUMAN CALCULATOR"

Scott's unique skills make him, according to the Guinness Book of World's Records TV show, the fastest in the world at adding constants even faster than a calculator. That's why talk show host Regis Philbin nicknamed him "The Human Calculator".

When Scott Flansburg begins his magical math presentation in schools, students' eyes light up. He is a true *Math Superhero*, with lightning-fast abilities that excite young peoples imaginations.

Best of all, his easygoing, fun approach to numbers get kids of all ages excited about math, and all the math games they can do with ease, and without "Math Anxiety". It's been

noted that "Math Anxiety" is one of the major educational roadblocks. Just the ability to take stress out of solving math problems is worth the modest cost of *Math Magic*.

INCREDIBLE RESULTS

Math Magic captures the imagination quickly, turning students who dislike the subject of math into math-lovers. The skills are acquired quickly, enabling problem students to become "honor" students in mathematics. Our schools are falling in this subject, creating another generation with inadequate math skills. Future careers depend on a solid foundation in calculating abilities, and the concepts in *Math Magic* actually help build logical thinking in the brain. In just hours, your children can add complex columns of numbers, without the benefit of a calculator, computer, or even a pencil – and get the right answers every time!

THOUSANDS SOLD ON HOME SHOPPING FOR \$159.95!

An earlier edition of this program sold out at \$159.95, but now your family can have *Math Magic* for two payments of just \$19.95!

"You'll not only help your kids with math, you'll help my Foundation in the fight against Cystic Fibrosis."

"Boomer" Eselson
