"In 3 days, they found relief from a lifetime of digestive & colon problems. It's INCREDIBLE!"

Dr. Dennis Clark

Dear Friend:

Nobel-Prize winning doctor, Elie Metchnikoff stumbled across the *astounding* power of probiotics by studying why a small group of people in Bulgaria lived such incredibly long & healthy lives. Today, this discovery can be yours. By encouraging the "good bacteria" in your gut and beating the "bad bacteria," you can help end your digestive problems.

Healthy Living Organization reveals, "There is nothing more important for your health than a clean digestive system." Doctors recommend Flora Source. It's *guaranteed* to help clean out your system—*no matter how bad it is—or it's free.* More on page 3...

"I GUARANTEE Flora Source™ Works For You— Or It's FREE!"

A Healthy Colon Lets You Eliminate Waste Quickly and Painlessly:

It works because the muscles on your colon walls push your food through so you eliminate regularly. Cell-damaging toxins don't build up.

Bits of gunk stick to your colon, causing pain!

"Flora Source™ is GUARANTEED to help end your discomfort or it's FREE!"
