**“I showed my 16-year-old daughter how to turn \$10,000 into \$110,000 in just 12 months — and now I want to show you some of the same techniques in LIVE trading!”**

**LARRY WILLIAMS**

“My greatest teaching success was my own daughter, Michelle. In 1997, I taught her how to trade the markets, and she entered the world’s premier real-world trading competition with \$10,000 of her own money. Her competitors were professional traders, CTAs, money management guys twice her age. But when it was all over, she had made a 1000% profit in 12 months... and won hands down.

“Of course, Michelle’s achievement was unique and involved aggressive and risky trading. But I said to myself, why not give other people the same kind of ‘hands-on’ attention... live, real-money trading demonstrations... and monthly mentoring and coaching that I gave to Michelle? That is why, for the first and possibly last time, I am launching an ALL-NEW 12-month mentoring program in 2003. At a series of new seminars beginning in January, I’ll be demonstrating my techniques LIVE, with real money on the line. And I’ll be making all of the trades I recommend so we’ll all be in the trades together.

“I believe this brand-new PROTEGE PROGRAM boot camp and follow-up mentoring sessions may be my most important breakthrough yet... and I’d like to invite you to be a part of it.”

**... and then followed up by a 12-month personal mentoring program conducted by me and a team of specially chosen mentors (all CFTC-licensed brokers and all personally trained by me in my methods and techniques).**

There is nothing like this new program anywhere. Your mentor will be available to work with you, on a one-on-one basis, so you

can make the trades yourself.

Not only that, at the weekend seminar we will introduce my streamlined trading system based on my unique 18-bar entry technique and my other discoveries and methods.

This system uses many of the same concepts I use every day to trade the markets — but it has been refined and back-tested for use by beginning to advanced traders.

A professional designer of futures trading systems was hired to test out this system with hypothetical trades on the "set-up" markets I've announced in seminars every January for the last four years.

This professional found that, using these new techniques, a trader could have

THERE IS A SUBSTANTIAL RISK OF LOSS IN FUTURES TRADING.

potentially made...

- ▶ **\$9,355 IN PROFITS:** In 1999, 6 out of 8 markets I identified would have made money using these techniques — for a combined net profit of \$9,355.
- ▶ **\$9,910 IN PROFITS:** In 2000, 7 out of 11 markets I identified would have made money using these techniques — for a combined net profit of \$9,910.
- ▶ **\$60,657 IN PROFITS:** The hypothetical results for 2001 stands out for this system! Nine out of the 10 identified markets would have made money using these techniques, and the combined net profit could have reached \$60,657.
- ▶ **\$13,155 IN PROFITS:** In 2002, 10 out of the 12 markets I identified would have made money using these techniques — for a combined net profit of \$13,155.

Of course, this is a new approach and these are hypothetical trades back-tested with real prices. I'm not implying any account is necessarily likely to achieve similar profits in real trading.

But beginning in 2003, I will be putting this trading system to the test with my own money — and I want you there with me, watching and learning every step of the way!

## Netted \$2,175 in 6 days!

"I bought your course late in 1997 and have spent several months paper trading. I have just finished an actual minor trade of one contract in soybeans, that netted me a tidy \$2,175 in only 6 days (real cash)... I made a modest goal of taking \$1000 to \$3000 within 3 months. Who'd have thought it would only take 6 trading days? Maybe, I'll be one of your next attendees at your insiders seminars. Looking forward to meeting you someday soon. Thanks again."

— Chuck P.

Unique experience, see important information on p. 19.

I'm not going to kid you. Trading the markets is risky. As the lawyers rightly say, "past performance is no guarantee of future results." And a hypothetical performance such as this one has to be tested out under real market conditions. There are often big differences between a system's hypothetical results and actual trading.

But I'm very, very excited about this new trading approach, for three reasons:

- ✓ It combines what I believe to be the BEST techniques I've used in more than 40 years of active trading AND my very latest discoveries and strategies;
- ✓ It takes advantage of a revolutionary new valuation indicator that I believe will radically change how traders

# You Can Learn How to Trade the Markets with Larry Williams, a Legend with Nearly 40 Years of Experience in Real-World Trading

In addition to winning the world's most famous real-money trading competition with an 11,000% return in one year, legendary trader Larry Williams has pioneered revolutionary trading techniques and indicators that have been used by literally thousands of traders worldwide.

- Has traded the markets for nearly 40 years!
- Won the world's most prestigious real-money trading championship, turning \$10,000 into \$1,147,607.01 in just 12 months. No other trader has ever come close to this record!
- Taught his 16-year-old daughter, Michelle, how to trade commodities. She took \$10,000 of her own money and grew it into \$110,000 in 12 months — setting the

second-best record in the world trading championship.

- Larry trades an account with a notional \$1 million “live” in front of witnesses in his “Million Dollar Challenge” Seminars.
- His revolutionary Williams %R Indicator is now an accepted technical indicator that is incorporated into numerous software charting packages and financial web-

sites and published in financial newspapers.

- Author of 7 bestselling books as well as the upcoming *Cashing in on the Crash*.
- Author of the 1982 bestseller, *How to Prosper in the Coming Good Years*, which accurately forecasted the largest bull market and surge of economic growth in American history.
- Twice ran for the U.S. Senate in his home state of Montana.
- Recipient of Futures Magazine's first Doctor of Futures Award. Past board member of the National Futures Association and winner of the Omega Research Lifetime Achievement Award.
- Subject of the book, *The Gold of Exodus*, about his adventures researching the location of the original Mt. Sinai.

approach the markets — and will be even more widely used than my Williams %R indicator.

- ✓ It's so easy to use a high school student could do it — and already has! My 16-year-old daughter, aggressively trading the market, turned \$10,000 into \$110,000 in 12 months using many of the same techniques and methods I will reveal in my new seminar. Hers was a unique achievement, but it gives you some idea of the power of these trading techniques.

## Let Me Show You How I Turned \$10,000 into \$1.1 million in Just 12 Months!

In my opinion, 95% of what you read and hear about commodities trading is pure hype.

Many of the trading techniques that are bandied about just don't work in the real world.

**But make no mistake: You could make staggering profits trading the markets if you are willing to take the well-known risks.**

## **I know... because I've done it.**

As I've said, I have been trading commodities since the late 1960s. I have written 8 books... published trading courses and manuals... and have edited expensive hotline services for traders.

But in 1987, after I had already wrote 3 books on trading, I proved to the world that some trading methods work... and others don't.

I entered the world's most famous real-money commodities trading championship and put \$10,000 into a real trading account. By the end of the year, that account had grown to \$1,147,607.

It was an 11,376% gain. In 12 months.

## **If a 16-year-old high school girl can learn how to use my techniques, so can you!**

But some people thought it was all a fluke. As a result, in 1997 I taught my teenage daughter Michelle how to trade — and she, at the age of 16, entered the same world trading championship.

My young daughter's competitors were professional CTAs, money managers, people who have been trading for years.

She put \$10,000 of her own money into

## **\$10,000 profit in just 6 weeks!**

*"I first went to one of your seminars in 1997 and have always been highly impressed w/u. Finally, after six years of trying to win at this silly game, I don't know what snapped but finally I feel like I've got it. I've been on a winning streak recently, doubled my \$10,000, in 6 weeks.*

— Van G., Louisiana

a trading account... and aggressively traded it, using the techniques, money management rules and methods I taught her.

By the end of the year, her original \$10,000 stake had grown to \$110,000 — a 1000% return in 12 months.

Sure, our success in these trading contests was unique and no one should assume that their trading will be as profitable, just because

Michelle and I won the World Cup with these kinds of extraordinary results.

But I decided I would do my best to pass on to others the techniques, trading methods and concepts that I believe I've gained over the past 40 years.

And that's why I began to offer private, two-day workshops all around the country: To teach ordinary investors how to trade the markets.

Some of my students have reported making a killing — using some of the same, easy-to-use techniques I taught my teenage daughter.

For example:

- ▶ **\$12,000 PROFIT IN 2 DAYS!** Lalyn B. reported that he learned my techniques and paper-traded for four months before he opened a real trading account. On his very first trade, he made over \$12,000 profit in two days — and sent me his brokerage account statement to prove it!\*

## **Made \$20,000 trading!**

*"I placed \$15K in my account... and started trading... and added \$25K to the account ... and my account at the end of January should show about \$60K. I owe this to you and your willingness to pass it on, to people like me."*

— Rich (no last name)

*Unique experience, see important information on p. 19.*

*(continued on next page...)*

**Another Major Breakthrough:  
Larry will trade ALL of the  
markets he recommends  
at his 2003 seminars —  
and provide monthly follow-  
up reports on how the  
trades have panned out!**

In the past, Larry revealed 8 to 12 markets that his indicators showed could blast off in the coming few months. He taught his students what to look for and when to know when a trading opportunity presented itself.

This year, for the first time, Larry will actually make all of the trades himself — so he can follow along and advise his students over the coming months.

“I can’t promise all of these trades will work out,” Larry says. “But in 2003, we’ll all be in it together — win, lose or draw.”

Sign up for the PROTEGE PROGRAM Boot Camp & follow-up mentoring program right away! **Call 1-800-968-8809.**

- ▶ **\$10,000 PROFIT IN 6 WEEKS.** My student Van G., from Louisiana attended one of my seminars in 1997. Using the techniques he learned from me, he reported he was able to **DOUBLE** his \$10,000 account in just six weeks.\*
- ▶ **\$66,000 PROFIT!** Carlos M. decided to apply my techniques — the Pro-Go, Will spread, %R, ADX, stochastics and several different patterns — to the stock market. He told me he ended up making \$66,000 profit using several of the techniques I reveal in my seminars.\*
- ▶ **\$30,000 PROFIT IN 3 WEEKS!** Henry C. of Oregon attended my seminar in Las Vegas. He wrote to tell me he made \$30,000 in three weeks and to thank me for my help, instruction, and products which he reported were indispensable to him.\*
- ▶ **A 71% GAIN IN 30 DAYS!** John C. reported making a 71% return on his investment in just one month. He opened a trading account with \$4,500 and says he grew it into \$7,732.50 in 30 days.\*
- ▶ **A \$6,000 PROFIT!** Alain L., of Quebec, started with \$9,000 and reported that he turned it into \$15,000 — a 66% gain!\*
- ▶ **A \$3,000 PROFIT IN 2 DAYS!** Michael K. of California attended one of my seminars and reports that he made \$3,000 in just two days.\*

Again, these are unique examples.

I can't promise you that your trading will be profitable like these examples, or that you'll do as well as these students... but if I were starting out in the markets, I would want to learn the same techniques and methods used by people who have produced winning trades in the real world.

## Here's Your Chance to Learn All-New Techniques and Money-Making Strategies I've Never Revealed Before!

You may have wondered about this: What will I teach at this new PROTEGE PROGRAM Boot Camp... and throughout the year in my follow-up mentoring sessions... that I haven't presented in my books, video courses and previous seminars?

That's a great question. And the answer is: PLENTY!

First of all, I'm constantly discovering NEW breakthroughs and refining my trading techniques.

While many of the basic concepts that I use have not changed over the years, the way I APPLY these concepts has changed a lot!

## "Made 73% return in one month!"

"November results were as follows:

1. Bought 1 March Cotton at 30.33 stopped out at 33.50 for a net profit of \$1555.00.
2. Sold 1 Mar Wheat at 2.9675 stopped out at 2.9150 for a net profit of \$232.50.
3. Bought 1 C\$ at 62.66 stopped out at 62.50 for a net loss of \$190.00.
4. Bought 2 C\$ at 62.89 sold at 63.05 for a net profit of \$260.00
5. Sold 2 Mar Wheat at \$2.9650 stopped out at \$2.84 for a net profit of \$1,190.

Total gains for month of November: Four winning trades for a net profit of \$3232.50, and one loss of \$190.00. Beginning account balance was \$4500. Ending balance was \$7732.50 for a one month return of approximately 73%.

For example, I now use a new index that tells me instantly when a commodity may be over- or under-valued. We are not talking about shop-worn oscillators here. This is an index that tells you *precisely* the percentage valuation of any commodity.

Think about what that means!

My new research shows that whenever a commodity is over 80% valued according to this index, it may be *very near* a market top.

In the same way, when a commodity is under 20% of its value according to this index then a huge move up might shortly follow.

Imagine how valuable this revolutionary new index alone could be to you!

And yet it is *not* in any of my books or video

## You'll find out what's "state of the art" in 2003

In short: In this all-new PROTEGE PROGRAM Boot Camp and mentoring program, I will reveal the "real deal" about what moves the markets — and how you can use my tools and techniques to predict where and when those moves may occur.

I'll teach you what's state-of-the-art in 2003 — what techniques and methods many professional traders use every day in REAL MONEY trading.

For example, I'll show you...

- ✓ **The right way and the wrong way to use Commitment of Trader data (hint: the way most people use this valuable information is dead wrong)...**
- ✓ **What I look for in price charts (3 indicators that most traders ignore but that are KEY for making trading decisions)...**
- ✓ **How to combine the DMI and ADX indicators so you can anticipate when a market may be about to explode to the upside...**

## \$30,000 in just three weeks!

"Nine months ago I bought your book "The Definitive Guide to Futures Trading," then attended FSI XXIV in Las Vegas, then bought your course "The Money Tree," and finally subscribed to Commodity Timing. I've just had my third consecutive +\$10,000 week and I wanted to thank you for your help, instruction and products — they have been indispensable to me."

— Henry C., Oregon

Unique experience, see important information on p. 19.

- ✓ **How to take advantage of public sentiment by using my proprietary index of financial newsletter writers (the most wrong of all!) for both stocks and commodities...**
- ✓ **The most promising seasonal trades...**
- ✓ **A world-famous trading system — at no extra cost (you'll be amazed to see this!)...**

- ✓ **A channel break-out strategy that is actually worth using...**
- ✓ **Why trend-following methods are NOT ENOUGH... and why you must also follow the commercials and public sentiment, seasonal factors, open interest, premiums and so on...**
- ✓ **How to spot divergences between professional buying and public buying for profit opportunities...**
- ✓ **How to spot the "pinch" and "punch" patterns as I demonstrate them on any stock or commodity you choose...**

# Imagine Turning \$10,000 into \$1,147,607.01 —in just 12 months!

There is nothing theoretical about Larry Williams's performance when he entered the world's most famous "live," real-money trading competition. What you see at right are the *actual statements* from Larry's account when he competed in that competition. He started the year with \$10,000... and he ended it with \$1,147,607.01. That's an 11,376% gain in 12 months.

As if that were not enough, Larry taught his 16-year-old daughter, Michelle, his techniques, strategies and systems... and she went on to win the same competition in 1997 with a 1,000% gain in 12 months, turning \$10,000 of her own money into \$110,000.

Of course, Larry and his daughter's achievement were unique and involved risky and aggressive trading. You cannot expect to achieve similar results in your own trading. But these statements do illustrate that Larry, unlike many so-called experts, "walks his talk" and puts his own money on the line.

PROGRAM Boot Camp is a **full-day of LIVE trading, with real money**, on Monday following the weekend introductory "boot camp."

In the past, people have paid \$5,000 for an opportunity to watch me trade live, with real money, in my Million-Dollar Challenges.

But you can see me demonstrate my techniques FREE in this optional "bonus" day. Beginning early Monday morning, I will actually place some orders for real-money trades just

so mentoring students can see how these techniques work in real-life.

I've discovered that people really benefit from watching me DEMONSTRATE my trading techniques "live"—with real money on the line. You can watch me place trading orders and then follow the market action minute by minute. Through the magic of computer technology, I am able to display an actual on-line

trading account on a large monitor so everyone attending the seminar can watch the trades unfold... live and as they happen!

I have NEVER done this before for my two-day weekend seminars — although, in the Million Dollar Challenge seminars, I've traded an account with a notional million dollars before a "live" audience.

I'm not promising to put that much money on the line in these all-day Monday demonstrations. I can't even promise I'll make money.

But this is your chance to see just how easy my techniques really are — and see for yourself how they work in real life. Not only that, but during this full "bonus" day on Monday, I'll reveal what I consider to be the best short-term trading systems and patterns — some of the same techniques and methods I used when I turned \$10,000 into \$1.1 million in one year.

## **I Will Make ALL of the Trades I Recommend So You Can Follow Them with Me!**

In the past, I told people who attended my winter seminars which of 8 to 12 markets I believed would likely explode in the coming 3 to 6 months... gave them indicators they should watch to know when to enter a trade... and then set them loose to make the trades.

This year, not only will I reveal which markets I believe are set to make MAJOR moves in 2003... and potentially

huge profits... but I will trade all of these myself and report back to you, in my monthly online mentoring sessions, how we're doing — win, lose or draw.

That way, I'll not only have my own money on the line in all of these trades... but you and I will be able to discuss these trades together in our monthly online mentoring sessions.

And that leads me to ANOTHER breakthrough in my all-new PROTEGE PROGRAM...

## **You Get the Personal Attention and Coaching for 12 Full Months Afterwards**

The truth is, for many people attending a weekend seminar alone is not enough. Many people want... and need...personal, one-on-one instruction and coaching to put what they've learned into practice.

That's why I've designed a comprehensive, 12-month mentoring program to follow *after* the weekend "boot camp" seminar and optional full-day trading demonstration.

It has taken a lot of work to put this mentoring program into place, but it's now ready to help YOU master my trading techniques — and make the trades yourself.

### **66% profits in one year!**

# For the First Time, Larry Will DEMONSTRATE His Trading Techniques in a Live, REAL-MONEY Trading Session on Monday After Each Weekend Seminar!

This is a RARE chance to see legendary trader Larry Williams in action! In the past, you could only see Larry do this in his Million-Dollar Challenges — which people gladly paid \$5,000 to attend.

Now for the first time, Larry is actually going to demonstrate his trading techniques during a special Monday morning session of LIVE TRADING, with real money, after each weekend seminar.

This is a priceless opportunity to learn Larry's

(metaphorically speaking) and watch as he actually demonstrates his techniques when the market opens Monday morning. Larry will use the same techniques and indicators that he reveals during the boot camp seminar over the weekend.

techniques in real-time trading.

There will be nothing theoretical about these trades! This will be exciting, real-money trading.

Now you can actually sit at the master's right hand

attendees can get my input on how the markets are shaping up... what to watch for... how the set-up trades are working out... which indicators to watch... when I think we should take profits or cut losses... and more. We'll review how the trades I've recommended have done... discuss my trading techniques and methods in the light of actual market realities ... and decide together what my techniques are next indicating.

And that's not all: At these sessions you'll be able to ask me questions, if you have any... and I'll be able to get a better feel for how you are doing trading in the real world.

## You Get to Email or to Talk to Me Personally Any Time You Want!

Most people just can't believe it when I tell them this. But it's true: I make myself available to answer questions from any seminar participant.

Plus, I don't have some huge office staff. When you call my office, more often than not I'll answer the phone myself.

If you participate in my all-new PROTEGE PROGRAM Boot Camp and Mentoring Program, you've **earned the right** to get the very best,

# You Get Personal Attention and Coaching for 12 Full Months After Each Seminar

Larry Williams only agreed to reveal his very latest discoveries and trading techniques under one condition: If a program were created to help seminar attendees follow through and learn how to trade in real life.

That's why, for the first time ever, Larry Williams has worked with a major brokerage company to create a special team of professionals who have been personally trained, by Larry, in his newest, best techniques and methods.

These trained professional PROTEGE PROGRAM mentors will coach you, over the coming weeks and months, so you can put into practice what

you learn in the PROTEGE PROGRAM Boot Camp.

Of course, you're under no obligation to use the resources these trained mentors have to offer. But if you'd like help implementing Larry's techniques or making some of the trades Larry

recommends, these cheerful, easy-going professionals are there for you.

They can answer your questions... consult with you on your decision when to enter or exit a trade, based on Larry's guidelines... or even help you open a brokerage account, if you don't have one yet.

These trading mentors are there to help you... any time you need them.

Call and reserve your slot today. By the time you receive this, seminars in some cities may already be sold out. Don't lose this rare opportunity to get 12 full months of follow-up mentoring and personal coaching. **Call 1-800-968-8809 right now.**

most useful information I can give you.

I've even installed a special phone line on my desk for the exclusive use of PROTEGE PROGRAM participants like yourself.

Confused about how to apply my 18-bar entry technique in one of the markets I reveal in January? I'm there to answer every question you may have. Just give me a call or send me an email.

Have questions about anything we cover in the weekend kick-off seminar? Call me.

I'll do my best to answer every question you might have. I'll give you my personal attention — and there's never any charge. All I ask is that you respect my time, only call during regular business hours and be understanding that I travel around a lot and sometimes can't get back to you immediately.

## **I Will Arrange for a Trained Personal Coach to Help You**

While I love to teach my techniques, the number of attendees makes it impossible for me to tailor trading advice to individual circumstances. That's why I've made a special arrangement with one of the world's largest commodities brokerage houses, to create a special team of trained professionals dedicated to helping PROTEGE PROGRAM participants.

These trained mentors are all licensed brokers who have been personally tutored by me in my methods and techniques. They've been given special instruction in how to help beginning traders learn how to invest in these markets.

These dedicated experts are NOT there to push you into trading if you don't want to.

They ARE able to help you get started, if and when you're ready. These are full-time, professional brokers who know what they're doing... understand my techniques and methods... and know how to trade in the real world.

You can call one of these PROTEGE PROGRAM tutors ANYTIME... and they will answer all of your questions and help you.

## **Doubled his money!**

*"Firstly thank you for the time and effort you put in at the Million Dollar Challenge. I have doubled my trading account since. And not with big winners but with a system that I have developed as a result of your instruction. It has given me 13 wins, 5 losses and \$2700."*

*Michael G., Australia*

*Unique experience, see important information on p. 19.*

The added benefit to this arrangement is that, if you don't already have a brokerage account — or have been intimidated about opening up a live trading account in the past — these specially-trained PROTEGE PROGRAM coaches can help you.

## **I've Even Arranged for You to Receive 5 Trades Commission- Free — A \$250 Value**

To make it even easier for you to make the trades, I've also arranged with a brokerage company so that your first 5 trades are FREE of all commissions and fees — a \$250 value. All PROTEGE PROGRAM participants receive \$250 worth of commission discounts.

That's right: If you do decide to trade with one of the PROTEGE PROGRAM coaches, your first 5 trades will not cost you one red penny. That's a \$250 savings that is offered EXCLUSIVELY to PROTEGE PROGRAM participants.

### Distribution Index.

There are free charting sites on the Internet, but you get what you pay for. But in YOUR case, you get what you DON'T pay for.

I've made arrangements to create a special integrated trading web site that provides you with what I believe is one of the best charting and analysis packages around— AND is completely in tune with my special trading techniques.

This brand-new web site... available FREE to all PROTEGE PROGRAM Boot Camp and mentoring students... lets you follow all the markets... provides daily and historic charts... and lets you customize the markets you want to follow.

It also has one of the best paper-trading programs I've ever seen. You can begin following my trades from day one — and it's almost as exciting as trading yourself!

There is nothing quite like setting up a new paper-trading account... entering in trades based on my techniques... and then following alone as the market prices rise and fall. It's one of the most exhilarating feelings imaginable! I still get excited whenever I'm trading.

Best of all, this new web site provides you with all of my favorite indicators — even my breakthrough Pro-Go analysis of diver-

gences between public and professional buying — so you can actually see my techniques at work in the markets I'll be trading in 2003.

These indicators include...

- ✓ Williams %R Indicator
- ✓ Williams Accumulation/Distribution Index
- ✓ Relative Strength Index
- ✓ Stochastics
- ✓ Current Volume & Open Interest
- ✓ 5-Year Average Open Interest
- ✓ 4, 9, 18, and 40-Day Moving Averages
- ✓ My own proprietary ADX
- ✓ Market Sentiment (for both stocks and commodities)
- ✓ Net Traders Positions (Commitment of Traders)
- ✓ My Personal Index of Commercials and Large Traders
- ✓ And lots more!

radical, life-changing concepts you'll ever encounter in your life. You'll have to re-learn everything you THOUGHT you knew about trading. It will be 24 hours of intense, focused, one-on-one, personal, in-depth instruction all aimed at one thing: Making you into the best trader you can be! I'll walk you through everything I've learned about trading the markets. I'll show you HOW to trade... WHEN to trade... WHAT to trade... and HOW MUCH to trade. I'll answer every question you may have — and go into as much detail as you need — so you'll walk away from the weekend kick-off session confident and ready to trade!

**2. You get to watch me use these techniques in real life during an optional FREE full-day Monday session of LIVE trading, with real money on the line.**

This will be one of the most valuable parts of the whole seminar weekend! You'll be able to actually watch me trade, LIVE and unrehearsed, with real money. You'll be able to see how the techniques actually work under real market conditions — and you'll be able to see (I hope) just how easy it is to trade, IF you follow my techniques and rules.

**3. You get my hottest money-making recommendations on which markets**

### **to trade beginning in early 2003.**

I'll reveal between 8 and 12 markets that I believe are "set up" trades — markets set to make MAJOR moves that could make you windfall profits in the next 3 to 6 months if I'm right. Not only that, I'll teach you PRECISELY how I identify these markets so you can continue to make trades on your own. Plus, I'll reveal...

- ▶ My entry and exit strategies that form the heart of my trading system — a trading system I will trade myself beginning in January.
- ▶ How I use Commitment of Trader data, DMI and ADX lines, volume and open interest figures, public sentiment, premiums and other factors to identify a market that is set up to move.
- ▶ My proprietary Rules and Check Lists to help you decide when to make a trade — and when to wait. One or two good indicators are not enough. I have developed an Integrated Trading Plan that helps keep you away from what I see as foolish mistakes.

4. **You get my comprehensive PROTEGE PROGRAM trading manual.** This comprehensive manual is a complete study guide with step-by-step lessons and detailed charts that explain and illustrate my BEST trading techniques, methods, strategies and money management rules. This guide takes someone with zero knowledge of trading the

markets and gets them up to speed FAST. It will be an invaluable tool that you will refer to again and again over the coming 12 months as you begin to APPLY what you first learned at the kick-off seminar weekend. You and your Mentoring Coach will both refer to this manual as you learn how to trade in real life, with real money.

### 5. **You get a monthly LIVE ONLINE mentoring session with me personally.**

I'll be trading ALL of the markets I reveal in January 2003 myself, with my own money, so you and I will be making the same trades. Whether you're just paper-trading these markets... or have real money on the line... these LIVE monthly mentoring sessions will help you understanding how the trades are working out... when you

should consider taking any profits... how to manage any losses... and what to do next!

6. **You get access to me any time you want, by email or telephone.** Once you become a participant in my new PROTEGE PROGRAM, I'm there for you. I'll become your personal mentor and coach in the exciting world of trading. I'll do my very best to answer every question you may have, as soon as I can. All I ask is that you try to figure things out yourself first (because that is really the only way you really learn) and that you understand that I am not allowed, legally, to give you personally-tailored trading advice.

**Made 9 times his money paper-trading!**

"I started paper trading in August 19, 1998 with \$5,000.00. It's now October 28, 1998. Two months and one week later. I now have \$49,402.00. With \$2,000.00 in losses. (Brokers fees deducted.)... Thank you again."

— Terry C.

Unique experience, see important information on p. 19.

**7. You get a trained personal coach who will answer all of your day to day questions... and help you each step of the way as you become a real-money trader.**

As I've said, these trained mentors are not telephone operators. These are CFTC-licensed professional brokers who know the markets ... and who have attended at least one of my trading seminars. They know my methods... the indicators and trading information I use... and my entry and exit techniques. They'll be able to guide you through your first trades. You don't need to be intimidated by the markets any longer. Your personal coach will be available to give you the help you'll need to trade.

**8. You get \$250 worth of FREE brokerage commissions for your first 5 real-money trades with one of the largest commodities brokerages in the world.**

Again, if you have your own broker, that's fine. But if you don't, you can make your first real-money trades, following my recommendations, for FREE. I've made a special arrangement with a large brokerage company — solely for my PROTEGE PROGRAM mentoring participants — so you can receive 5 trades FREE of all commissions. That's a \$250 value. Now, not only can you learn my techniques, but as you use them, your first five trades won't cost you a penny in commissions or fees.

**9. You get a FREE trial subscription to one of the best charting services and online trading web sites around — a web site that would normally cost you \$800.**

The advantage of this brand-new web site and charting service is that it features the same indicators and analysis tools that I use when trading — including my trade-marked Williams %R indicator,

- 10. You get VIP, personal treatment from a real-money trader.** As I've said, I'm not an all-knowing guru. But I am a real trader — one of the few people in the world who has been documented to have started with next to nothing (\$10,000) and turned it into a million bucks in 12 months. If you want to trade commodities, I can honestly say "been there, done that." You really should take advantage of my nearly 40 years of experience trading the markets — my nearly 40 years of trying out different systems, methods and techniques. The money you spend on my mentoring program will give you the benefit of that experience and could save you costly mistakes... and missed opportunities.

## Finally, You Get All This For Practically NOTHING!

### Up 33% in one month!

"I just wanted to let you know that even though I and my brother, Pat, are not quite on the million dollar path you achieved..., we \*are\* up a full 33% in our account since funding it the second week of Sept.... Our account started at \$15,000 on Sept. 12, and today at noon [Oct. 5], it surpassed the \$20,000 mark. We both attribute this success to the techniques you taught us during the workshop and we feel that it was the best money we could have ever spent. Thanks for being so generous with your knowledge and I am certain you will see us again at a future workshop.

Unique experience, see important information on p. 19.

In my opinion, this brand-new PROTEGE PROGRAM Boot Camp and Mentoring Program is the bargain of the century — especially when you consider what you get.

I am probably one of the most highly paid teachers of commodities trading in the world. People pay me \$5,000 to watch me trade live. I travel all over the world giving private seminars.

But you can get this entire mentoring program — the **personal instruction, trading systems, live trading demonstrations, recos, personal coaching, online mentoring, commission discounts, sophisticated computer trading tools, email and telephone consultations** — all for the low price of just \$2,500.

And you don't even have to pay that! In a moment, I'll tell you how you can pay just \$1,995 — or \$505 less.

(The actual price of tuition for the PROTEGE PROGRAM seminar and 12 full months of ongoing mentoring and personal coaching works out to less than \$167 a month.)

## Best of all, you can try out the PROTEGE PROGRAM Boot Camp without taking any risk!

You and I are going to be spending 12 months together. I am going to be pouring my heart out to you, sharing with you my trading secrets, experience and judgment. As a result, I reserve the right to be selective about whom I accept as mentoring students.

I really only want SERIOUS people enrolled in this program — people who really want to become profitable, long-term, sophisticated traders.

But... and here is where the no-risk offer comes in... the same goes for you. I don't expect you to take my word for it that this program can actually turn you into a real-money trader.

## Nothing but profits!

"Nothing but profits! I have learned more from you in the last 9 months than from my 37 years on the floor of the NYSE put together. Thanks for everything!"

We expect to SELL OUT every single slot.

We are LIMITING the number of seats available because, quite frankly, we don't have the resources to handle more than a limited number of students. We've only been able to train a set number of mentoring coaches.

As a result, if you respond within the next 3 weeks to this offer, I'll knock \$505 off the cost of tuition. You'll pay just \$1,995 for the entire program — or just \$166.25 a month.

## Sign Up Now Because This Mentoring Program May Be the Last One of Its Kind Ever Offered

One more thing. I know this is going to sound like marketing hype, but the truth is that **I'm not going to be doing these seminars much longer.** Plus, there is a limited number of trained mentors available.

I had already decided to quit doing seminars. I only agreed to do this new series of seminars if we TOTALLY CHANGED the approach and made it a more personal, one-on-one, mentoring and coaching program — so people who attend could actually APPLY what they learn.

I am telling you this because I honestly believe I have something to teach you — IF you want to learn how to trade.

If you're just a talker or a wannabe, with-

out serious commitment, then you shouldn't waste my time or your own. I have a limited amount of spaces available for mentoring students... my new and probably last proteges... and I only want people who really want to trade.

Are you one of those people?

If so, my advice is that you sign up for this PROTEGE PROGRAM Boot Camp RIGHT NOW. I don't know how long this mentoring program is going to last — one year or five — but I'm pretty sure I won't be doing another one.

This is a truly a rare opportunity to learn, personally, from someone who has turned \$10,000 into \$1.1 million in 12 months, with real money. The secrets I will reveal to you could potentially make you handsome profits in 2003. I honestly believe that.

The most valuable thing in my possession — my trading knowledge and experience — is what I want to pass on, my legacy.

I gave this same gift to my young daughter, at the age of 16 — and she went on to win the world's foremost real-money trading competition with a 1,000% return in one year. While I can't promise and you shouldn't

expect to achieve these same unique results, you will get the tools and techniques you need to apply my system in real life.

But your rules and what you teach has almost always worked and kept me out of trouble."*
